

Melanie Prettyman

Username: melaniep
Password: 9cwDNung

Welcome to the Kahlert School of Computing! An account has been created for you on our *NIX/NIS/LDAP and Active Directory based systems. Your username is the same for both systems, and the initial passwords are set to the single password above.

Please complete the following steps to activate your account:

***NIX/NIS/LDAP**

To use our *NIX-based systems, run any SSH client (ssh, putty, SecureCRT, etc) to login to *shell.cs.utah.edu* with the account information found at the top of this page. You'll need to use port 5522 if coming in from off campus. If you wish to change your password, run the 'yppasswd' command and follow the prompts.

Active Directory/Windows

To change your Active Directory password, follow the above steps to login to *shell.cs.utah.edu* using an SSH client and run the following command 'smbpasswd -r sodom.cs.utah.edu' and follow the prompts.

For further information and an overview of the facility please see our main web page at:

<http://support.cs.utah.edu>

If you have any questions or problems, just email us at *support@cs.utah.edu*.
